

FABIO SDRINGOLA MARANGA

Web Developer

Education

Ironhack Web Developer

at Ironhack May-June 2023

A comprehensive and cutting-edge program designed for both beginners and seasoned developers. It equips students with the skills and knowledge needed to excel in the fast-paced web development industry.

Radiology Technology

University of Perugia

2014-2017

ESL Program

Rice University - Houston, TX

May-July 2018

Skills

- **Frontend:**
Angular, React, Next.js, TypeScript, Sass, Tailwind CSS
- **Backend:**
NestJS, Node.js, Go (Golang), RESTful APIs
- **Geospatial:**
PostGIS, Deck.gl, Mapbox, OpenLayers, GeoServer
- **Database/Tools:**
PostGIS, Deck.gl, Mapbox, OpenLayers, GeoServer

Languages

- Native Italian
- English TOEFL 92

Profile

Full-Stack Engineer with a professional background in Radiology Technology, specialized in **geospatial data management** and currently focused on architecting **NestJS microservices**. At EagleProjects, I build high-performance interfaces and backends for advanced robotics, including drones and robotic dogs. I leverage tools like PostGIS, Deck.gl, and Mapbox to solve complex spatial challenges. I am a proactive team contributor dedicated to scalable systems and fostering developer growth through optimized peer-review workflows.

Experience

FULL-STACK ENGINEER | ROBOTICS & GEOSPATIAL SYSTEMS.

[EagleProjects](#) - Perugia, Italy

2023-Present

- **Microservices Architecture:** Currently specializing in the migration and development of backend systems using NestJS microservices to improve scalability.
- **Robotics Integration:** Collaborating with engineers to develop remote control interfaces for robotic dogs and drones using React and Node.js.
- **Geospatial Performance:** Engineered a map rendering engine using Deck.gl and PostGIS capable of rendering millions of features smoothly while allowing for real-time data interaction and editing.
- **Infrastructure & Testing:** Integrated Encore.ts into the backend workflow and ensured high code quality through E2E and unit testing with Playwright and Jest.
- **Team Leadership:** Optimized the PR review process to include junior developers, improving team delivery speed and professional development.
